

8:40 Meeting - Tuesday, 16 October 1973

Our Contract Personnel People

1. Assisting Frustrated Employee: Assisted frustrated Agency Employee who having lost her wallet with all the usual personal identification and credit cards was attempting to get a replacement of her social security card from Social Security and had reached an impasse. The employee's calls to and correspondence with Social Security Administration had eventually led to a final denial by Social Security that the number which she presumed to be her properly issued social security number and which she had been using for tax returns and for official needs, was incorrect. Through our liaison the number was within 48 hours verified as correct and a new social security card issued to her.

2. Co-Op: The Coordinator for Cooperative Programs left yesterday to recruit at Mississippi State University and Grambling College. He will return to the office Friday morning.

3. Alumni Placement: Informal, personal contact by Chuck of External Placement with the Duke University placement officials -- particularly their Alumni Placement Unit -- elicited information that there has been a noticeable increase in two areas:

1. The number of alumni now seeking their help.
2. The number desiring to return to North Carolina.

(Above not particularly germane to the issue but interesting in showing a possible trend)
